

Cross Roads OB/GYN is committed to optimizing the safety of our patients and our staff during the COVID-19 pandemic. As such, as of Monday, March 16, 2020, we have increased INFECTION CONTROL and SOCIAL DISTANCING measures.

INFECTION CONTROL

TRAVEL outside Canada
in the past 2 weeks

EXPOSURE to a known
case of COVID19

Any
SYMPTOMS
of cold or flu

fever/chills
cough
shortness of breath
sore throat
muscle aches
runny nose

DO NOT ENTER THE CLINIC

Please fill out a form and pass it through our specimen window in front of the elevators

A staff member will call your cell with further instructions on re-booking your appointment

Where appropriate, our staff can pass you a mask through this window

MILD
Symptoms

Self
isolate at
home
until
better

SEVERE Illness

high fever
shortness of breath
extreme fatigue
decreased fetal
movement

Our staff will direct
you to the most
appropriate facility
and will assist you
with hospital pre-
notification

If none of the above, please use the hand sanitizer, and read the SOCIAL DISTANCING poster before entering the clinic.
